EDUCATION

Neuropsychology Post-Doctoral Training
Miami and Minneapolis Veterans Affairs Medical Centers
Miami, FL; August 1993 & Minneapolis, MN; Sept. 1995

Doctor of Philosophy in Clinical Psychology
The Catholic University of America
Washington, D.C.; February 1993
Doctoral Dissertation: Psychotherapy Efficacy: An *a priori* examination of "error variance."

Master of Arts in Clinical Psychology
Loyola College
Baltimore, Maryland; May 1987
Master's Thesis: The effects of neurocognitive therapy on salivary immunoglobulin concentrations.

Bachelor of Science in Chemistry, magna cum laude
Hampden-Sydney College
Hampden-Sydney, Virginia; May 1984

HONORS & AWARDS

1999 First Place Award for Scientific Poster Presentation, 3rd World Congress on Brain Injury,
International Brain Injury Association, Quebec, Canada.
1997 Blue Ribbon Award for Excellence in Scientific Presentation, Division 40, American Psychological Association
1986 Graduate Student Research Grant Award, Maryland Psychological Association
Awarded for Master Thesis: "The Effects of Neurocognitive Therapy on Salivary Immunoglobulin Concentrations."
Phi Beta Kappa
Alpha Sigma Nu (National Jesuit Honor Society)
Who's Who in American Colleges & Universities
Allan Scholarship, Hampden-Sydney College, Virginia (Full Scholarship)

PROFESSIONAL ASSOCIATIONS

American Psychological Association, Divisions 40 (Neuropsychology) & Division 12 (Clinical Psychology)
Fellow, Maryland Psychological Association

PROFESSIONAL EXPERIENCE AND TRAINING:

January 2017 **Private Practice Offices:**
to 8737 Colesville Road, Suite 801; Silver Spring, MD 20910
Present 1924 Chapel Hill Road; Silver Spring, MD 20906

Clinical psychology and neuropsychology practice providing a full range of clinical services, including individual and family therapeutic interventions, neuropsychological and psychoeducational evaluation, and neurorehabilitative consultation and counseling.

July 2011 - **Assistant Professor, Department of Psychiatry and Behavioral Sciences**
Feb 2017, **Division of Medical Psychology, Johns Hopkins University School of Medicine**
June 2017 **Cortical Function Laboratory and Medical Psychology Clinic**
to Meyer Building, Suite 218; The Johns Hopkins Hospital
Present 600 North Wolfe Street; Baltimore, MD 21287-7218

Perform neuropsychological and medical psychology evaluations and related services for Johns Hopkins Medicine. Assist in training and supervision of clinical and research neuropsychology postdoctoral fellows and participate in neuropsychological research, currently in conjunction with The Brain Injury Clinic at Johns Hopkins Bayview Medical Center.

June 2013 **Maryland Psychology Group, LLC: Richard A. Lanham, Jr., Ph.D. & Lorrie Ness, Ph.D.**
to 8605 Cameron Street, Suite 303; Silver Spring, MD
January 2017 www.MarylandPsychologyGroup.com

Clinical psychology and Neuropsychology practice providing a full range of clinical services, including individual and family therapeutic interventions, neuropsychological and psychoeducational evaluation, and neurorehabilitative consultation and counseling.

June 2000 **Silver Spring Psychology: Richard A. Lanham, Jr., Ph.D.**
to 1109 Spring Street, Suite 609; Silver Spring, MD
May 2013 www.SilverSpringPsychology.com

Clinical psychology and Neuropsychology practice providing a full range of clinical services, including individual and family therapeutic interventions, neuropsychological and psychoeducational evaluation, and neurorehabilitative consultation and counseling.

Sept. 1993 **Clinical and Research Neuropsychologist: Traumatic Brain Injury Program**
to **Assistant Professor, Department of Psychology, University of Minnesota**
May 2000

Dept. of Veterans Affairs Medical Center: Minneapolis, MN
Principal Investigator: Barbara Sigford, M.D., Ph.D., Chief, Physical Medicine & Rehabilitation
Clinical Supervisor: Sandra Lundgren, Ph.D., ABPP/ABCN, Section Chief, Special Psych. Services

Neuropsychologist for the Minneapolis site of the Defense and Veterans Head Injury Program (DVHIP), a national, collaborative DoD-DVA evaluation, treatment, and research program servicing active duty personnel, their dependents, and veterans. The Minneapolis TBI Program is CARF accredited in both General and TBI inpatient and outpatient rehabilitation. The first two years of clinical work were under the supervision/mentorship of Dr. Sandra Lundgren, ABPP/ABCN to complete post-doctoral training. Duties included providing clinical neuropsychological evaluation and consultation to patients and their families as a member of the inpatient and outpatient interdisciplinary teams; collaboration with other DVHIP sites in generation of research projects for presentation and publication; and assisting in psychology intern and neuropsychology postdoctoral-level training/supervision and medical resident training. Chaired committee in 02/00 that was awarded funding for two post-doctoral fellowship

positions (Neuropsychology and Medical Psychology) in response to DVA call for proposals for post-doctoral training program in psychology.

**Jan. 1993
to
Aug. 1993**

Neuropsychology Post-doctoral Training: Psychology Service

Department of Veterans Affairs Medical Center: Miami, FL

Director, Neuropsychology Section & Clinical Supervisor: Carlton S. Gass, Ph.D.

Adjunct Faculty: Elbert W. Russell, Ph.D., Emeritus

Clinical duties included test administration, interpretation, report writing, and consultation/liaison as a member of the Neuropsychology Section of the Psychology Service. Training included attending weekly neurology grand rounds at Jackson Memorial Hospital/University of Miami School of Medicine, neuroanatomy/neuropathology presentations, weekly neuropsychology case conferences both within the VAMC's Neuropsychology Section and the Neuropsychology Division of the Department of Neurology at the Miami School of Medicine, Bonnie Levin, PhD, Director. Assisted in the training of psychology interns and medical residents.

**Sept. 1991
to
Sept. 1992**

Clinical Internship: Psychology Service

Dept. of Veterans Affairs Medical Center: Miami, FL

Training Director: Philip C. Burda, Ph.D.

Clinical Neuropsychology Specialization:

Six-month rotation satisfied APA, Division 40 pre-doctoral requirements for a Neuropsychology Internship. Consideration of previous neuropsychological training resulted in rotation being an advanced training experience. Later three months of the rotation was split with an inpatient psychiatric treatment unit providing neuropsychological services.

Supervisor: Carlton S. Gass, Ph.D.

Adjunct Staff: Elbert W. Russell, Ph.D., Emeritus

Geropsychology Specialization:

Six-month specialized rotation in geropsychology. Training included geriatric neuropsychology and health psychology evaluations and general consultation/liaison to two Extended Care Units, the VAMC nursing home, the Dementia Unit, and Dysphagia Team. A variety of psychological, psychoeducational, and behavioral interventions and consultation experiences were provided through work with various multidisciplinary teams and off-site, formalized training programs through the University of Miami School of Medicine

Supervisors: Colleen M. West, Ph.D. - Extended Care Units

Peter Goldsmith, Ph.D. & Gwendolyn Findley, Ph.D. - Dementia and Nursing Home Care Units

Biopsychosocial Rehabilitation Program: Three month, half-time rotation involved participating in the comprehensive treatment of chronic psychiatric patients. Duties included co-leading therapy groups, conducting intake psychological assessments, and functioning as part of an interdisciplinary inpatient psychiatry treatment team.

Supervisors: Philip C. Burda, Ph.D. & Timothy W. Starkey, Ph.D.

**July 1988
to
Aug. 1991**

Psychology Associate: Psychology and Education Associates

Clinton, Maryland

James E. Lewis, Ph.D., Director, Clinical Neuropsychologist

Conducted child and adult neuropsychological (HRB), psychological, and psychoeducational assessments, individual and group psychotherapy, and training of psychometricians under the direct supervision of James E. Lewis, Ph.D. Granted Psychology Associate exemption status from Maryland Board of Examiners of Psychologists.

May 1990
to
Aug. 1991

Psychology Associate: Personnel, Consultation, and Counseling
Silver Spring, Maryland
R. Patrick Savage, Ph.D.

Conducted child and adult neuropsychological (HRB), psychological, and psychoeducational assessments. Coordinated Employees Assistance Program (EAP) contract with Giant Foods, Inc. Duties included screening and referring employees (or family members) to psychological, financial, and/or legal services; continuing update and development of referral base; and case management. Granted Psychology Associate exemption status from Maryland Board of Examiners of Psychologists.

Sept. 1990
to
May 1991

Associate Staff: Catholic University of America Counseling Center
Washington, D.C.
Peter Cimboric, Ph.D., Director

Advanced training in individual psychotherapy and crisis intervention from Center's senior staff. Carried active caseload of four clients in addition to crisis intervention clients.

Jan. 1991
to
May 1991

Lecturer: Trinity College
Washington, D.C. Jonathan Segal, Ph.D., Chair Psychology Dept.

Taught Psy 258: Personality and Psychopathology at Trinity College's weekend college. Duties entailed all aspects of course creation and teaching, including selection of texts, development of course projects, tests, and overall student evaluation.

June 1987
to
May 1991

Statistical Consultant, Independent Contractor:

Advised clients in experimental design. Generated and assisted in interpretation of statistical results.

Sept. 1989
to
May 1990

Externship: Catholic University of America Counseling Center
Washington, D.C.
Peter Cimboric, Ph.D., Director

Conducted intake assessments and individual and group therapy under the training and supervision of the senior staff of the CUA Counseling Center, ranked 32nd out of over a thousand college and university counseling centers ([Gourman Report](#), 7th ed.). Carried caseload of eight individual clients, co-lead men's issues group therapy, member of intense semester-long training group for Group Relations Conference (Tavistock) culminating in consulting to the Leadership Training Conference, a weekend conference for CUA undergraduate student leaders.

May 1986
to
Sept. 1988

Behavioral Medicine Therapist: North Arundel Hospital's LifeCenter
Glen Burnie, Maryland
Clinical Supervisor: George S. Everly, Jr., Ph.D.

Duties entailed intake psychological assessments and treatment outcome evaluation; running the smoking cessation and morbid obesity weight loss treatment programs, assisting in redesigning the weight loss treatment program; conducting group and individual therapy sessions.

Sept. 1984
to
June 1986

Research Technician: Johns Hopkins School of Medicine
Bard Laboratories of Neuroscience
Vernon B. Mountcastle, M.D., Director

Duties included behavioral training of rhesus monkeys on a complex visual task for project directed at neuronal mapping of the visual cortex; surgical assistant; assisting with data management and computer analysis of project data, and miscellaneous tasks for day-to-day laboratory operation.

GRADUATE SCHOOL APPOINTMENTS

Catholic University:

Sept. 1987 to May 1991 **Teaching Assistant: Graduate Statistics**
Assisted with teaching first and second semesters of the graduate level statistics course for three consecutive years. In charge of the teaching and evaluation of computer (SPSS) skills, test construction and grading, and individual instruction.

June-Aug. 1988 **University Summer Lecturer: Introduction to Psychology**
Taught college level, introductory psychology course at Catholic University. In charge of course structure, class lectures, and student evaluation.

Loyola College:

Sept. to May 1986 **Teaching Assistant: Rorschach Comprehensive System**
For two consecutive semesters, assisted graduate students in learning the Administration, Scoring and Interpretation of the Rorschach Comprehensive System.

Sept. to Dec. 1985 **Research Assistant: Biofeedback Laboratory**
Assisted in research involving physiological reactions to stress and relaxation. Competent in administration of biofeedback and teaching of various active/passive relaxation techniques.
